

MUNSON, INC

Why should you do business with Munson?

We have over 30 years of experience in the tennis court business. We are the only Wisconsin company that can design and build a tennis court in-house without using sub-contractors. Munson, Inc. won the 2002 Concrete Design Award and the 2003 USTC & TBA Residential Tennis Court award for our courts. As members of the U.S. Tennis Court and Track Builders Association and Wisconsin Asphalt Pavement Association, we have the support of other professionals (who help

to keep us informed), both locally and internationally, in terms of current methods of construction, materials, equipment and technology in order to meet your demands and our commitment to high quality. In addition, as a way to save you time and money, we provide a program of “semi-annual court inspections” in order for you to establish a maintenance plan, spanning several years. To create a consistent quality playing surface and avoid large, unplanned capital expenditures, a list of our services is included on the back of this sheet.
